"New small scale units often experience problems and delays in securing working capital finance. In order to overcome this difficulty, it has been decided that requirements of working capital upto Rs 2.5 lakhs for new tiny and small scale units, whose project cost does not exceed Rs. 5 lakhs, will be provided through a single window. Thus, both term loans and working capital will be made available by the same bank or institution. The details of this scheme will be announced by Industrial Development Bank of India shortly".
